Chrysanthemum
Price List
and
Order Blank
1933

Geneva Floral Co.
GENEVA, N. Y.

SPECIAL NOTICE

15% off on all Cash With Order orders mailed before Feb. 15, 1933.

5% off on all orders not cash mailed before Feb. 15, 1933. These cash in advance orders are a great help to us in determining the amount of stock to provide for varieties most in demand for this season.

This offer goes only to our old customers and many of them have taken advantage of it during the past few seasons.

You have the privilege of changing your order in any way, if you find later you want to do so, or you may cancel.

We thank you for past favors and are confident we can please you this year. Get your order in early.

Respectfully,

GENEVA FLORAL CO., Geneva, N. Y.

OUR GUARANTEE:—We deliver Chrysanthemum rooted cuttings or transplanted cuttings by parcel post prepaid up to the 6th zone or 1400 miles from Geneva and guarantee safe delivery. Stock not satisfactory when received may be returned at once and money refunded, or slight difficulties will be adjusted and you keep the stock. Outside this territory stock travels at buyers risk and expense.

To the Trade:

Without question we have the largest and best stock to propagate from this season that we have ever had.

A large portion of our stock is grown in the field all summer and is in fine shape.

The average retail florist growing a few hundred or a few thousand Mums each year can hardly afford to grow his own when he can buy **GUARANTEED STOCK** at the prices we offer, and if he will order in advance his stock will be delivered just when wanted. He cannot produce the quality of stock he can buy from the Specialist.

Also, count on **FREE DELIVERY** of Rooted Cuttings to your P. O. address.

We have arranged so you can use this list for an Order Blank if desired. Another list will be mailed you with acceptance of order.

We gladly mail samples for 25c in postage.

Soft, Short Cuttings are the kinds we grow and repeat orders year after year from many of our old customers is a very conclusive testimonial as to the quality of our stock.

GENEVA FLORAL CO.
Geneva, N. Y.

BLOOMING DATES

Dates for blooming are quite misleading. This depends almost entirely on the way the crop is grown. If grown cool the crop will be retarded and if given heat it will be hurried along. The date of planting also makes some difference. If you want more particulars on blooming dates, write us and we will be glad to give any assistance possible.

ADVANCE ORDERS

If possible place your order early—and then we can either propagate especially for you or can mark your order (sold) in the regular cutting bench so when time for shipment comes your stock is ready.

Many of our customers do this and find it greatly to their advantage. We try and have reserve stock we can call on to provide for advance orders.

Always give us as much time as possible on your order.

PRICES, EXCEPT WHERE NOTED:

Rooted cuttings. . \$.50 per 10, \$3 per 100, \$25 per 1000

Potted Plants. . \$.70 per 10, \$5 per 100, \$45 per 1000.

Not less than 5 of kind at 10, 25 at 100, and 250 at 1000 rates.

Orders of 1000 or more assorted varieties may take 1000 rates.

Five percent off cash with order, two percent ten days, 30 days net.

Cash with order or C. O. D. to parties without established credit.

.....	Bronze Caprice
.....	Lavender Caprice
.....	Pink Caprice
.....	Purple Caprice
.....	Yellow Caprice
.....	White Caprice

MIDGE

Fume Tobac will control Midge and is very easy to handle. It may be had from most supply houses or direct from the Uniform Products Company, Inc., 111 Fifth Ave., New York. The company furnishes tins for hanging in the house for burning the powder, and for our use we consider this the most practical of anything we have found to control Midge. We also sometimes have to spray with NICOFUME LIQUID and sometimes we use CYANOGAS, both of which are good but not so pleasant to handle as the Fume Tobac.

You need not fear Midge if you use preventatives. Our stock is clean and we keep it clean.

SNAPDRAGON

Follow your Mums with Snaps. Now that Rust can be completely controlled many find this a very paying crop. Snaps and Mums are the only whole-sale crops we grow and by putting all our energies and thought into these two crops we think we can give you as good or better service than you can get elsewhere. We try to treat our customers as we would want them to treat us if we were buying and we will expect to supply you regularly. Our Rust circular is free.

FERTILIZER

As to fertilizer for Mums, we have tried many kinds with varied degrees of success but have found Smith's Mum Manure has given us the best satisfaction. This is made by the Independent Mfg. Co. of Philadelphia, Pa., and costs \$70.00 per ton. It may also be purchased at the same price through Henry F. Michell Co., 518 Market St., Philadelphia, Pa. We used $\frac{1}{2}$ lb. per bushel of soil—or about that—and a top dressing later.

Also, for a liquid Chemical Fertilizer, Chrysaline, prepared by Elmer D. Smith & Co., of Adrian, Mich., will give excellent results. This is a complete fertilizer made especially for Chrysanthemums.

CULTURAL DIRECTIONS

Many people write us for cultural directions for Mums.

This is too great a subject for an ordinary letter and the best book we know on the subject is "Smith's Chrysanthemum Manual" by Elmer D. Smith, Adrian, Mich. Price is \$1.50 and it will pay you well to have a copy.
